1. Qualitative Information on Quarterly Financial Results

(1) Operating Results

Analysis of operating results

Japan saw signs of a mild economic recovery during the six months ended September 30, 2023, but the outlook remains uncertain. There is a risk of a slowdown in the Japanese economy as it faces downward pressure from slowing overseas economies, such as with the impact associated with global monetary tightening and concerns about the outlook for the Chinese economy. In addition, close attention should be paid to the impact of rising prices and financial market fluctuations.

Corporate earnings have generally improved, and system investment by client companies has remained firm.

Based on the Medium-term Business Strategy 2021–2025 published in April 2021, NS Solutions Corporation (hereinafter, the “Company,” and the Company and its subsidiaries are collectively referred to as the “Group”) defined four focus areas for business growth: digital transformation (DX) in the manufacturing industry, digital platformer, digital workplace solutions, and IT outsourcing. We are endeavoring to expand our business by capturing customer needs for DX to the greatest extent possible.

As part of our efforts to promote customers’ DX, the Company has introduced an “AI-powered demand forecasting system” to improve the efficiency and sophistication of demand forecasting operations for a beverage company, as well as a supply and demand management system that leverages “PPPlan,” the Company’s supply chain management cloud service for the food industry. Also, for educational institutions, the Company has started offering “CampusSquare S Edition,” an administrative work system for universities and colleges, which has been provided to more than 100 schools nationwide since 1995, made available via subscription.

Moreover, in the AI domain, where the Company has accumulated knowledge, we have started to offer support services powered by generative AI and ChatGPT. The Company has also entered into a business alliance with AI startup company ExaWizards Inc., and commenced collaboration with AI platform companies Kore.ai Inc. and FastLabel Inc. in efforts to strengthen and expand our initiatives.

In addition, our virtual desktop service “M³DaaS@absonne” ranked first in the “DaaS market share” for the 10th consecutive year (referencing from Fuji Chimera Research Institute, Inc., “2023 Current Trends and Future Prospects of Cloud Computing”) and the cumulative number of documents registered on “CONTRACTHUB,” an electronic transaction and contract service, exceeded 30 million at the end of April 2023. We are striving for growth in our focus areas.

To promote sustainability management, we have organized our value creation process based on our goals to achieve the purpose of our existence in society, defined five material issues, and are working to address them. The Company has been committed to fostering a corporate culture in which everyone can work with vigor and enthusiasm, including the promotion of D&I. Continuing from the last year, the Company supported and co-sponsored “TOKYO RAINBOW PRIDE 2023” and is engaged in various business activities from an ESG perspective to create a prosperous society, such as with the establishment of “GRID BOX,” an incubator that promotes the training of top-level IT engineers and the creation of employment opportunities in regional areas jointly with Izumo City in Shimane Prefecture and companies in that prefecture. As a result of these efforts, the Company was selected again as an index component of the FTSE4Good Index Series, FTSE Blossom of Japan Index, and FTSE Blossom Japan Sector Relative Index, which are ESG investment benchmarks.

Revenue for the six months ended September 30, 2023 amounted to 144,774 million yen, an increase of 10,088 million yen compared to 134,685 million yen for the same period of the previous fiscal year. This was due to

favorable conditions in digital workplace solutions, the cloud services and Oracle solutions, in addition to higher sales to major banks and Nippon Steel Corporation. Operating profit amounted to 14,642 million yen, an increase of 637 million yen compared to 14,004 million yen for the same period of the previous fiscal year. This was due to increased gross profit including an improved gross profit margin, despite a rise in selling, general and administrative expenses as a result of the implementation of measures to strengthen human capital, including recruiting and training, and the promotion of internal infrastructure improvement in addition to enhancing sales capability.

An overview of the six months ended September 30, 2023 by service field (Business Solutions and Consulting & Digital Service) is as follows.

Business Solutions

In Business Solutions, revenue for the six months ended September 30, 2023 totaled 110,643 million yen, an increase of 6,617 million yen compared to 104,026 million yen in the same period of the previous fiscal year.

Manufacturing, Nippon Steel Group

Revenue in the Manufacturing, Nippon Steel Group field increased compared to the same period of the previous fiscal year owing to higher sales to Nippon Steel Corporation.

Retail and Service, Digital Platformer

Revenue in the Retail and Service, Digital Platformer field rose from the same period of the previous fiscal year.

Financial Service

Revenue in the Financial Service field increased from the same period of the previous fiscal year on increased sales to major banks.

Information on capital resources and liquidity of funds

i) Basic policy

The Group believes that it is important to continuously maintain and strengthen its competitiveness and increase its corporate value into the future.

Therefore, we seek to maintain sufficient internal reserves to prepare for capital requirements for business growth and business risks such as wide-area disasters. The capital requirements include those for initiatives to steadily capture evolving DX needs, continuously enhance high-value-added businesses and overall corporate value, further strengthen acquisition and training of excellent human resources, and conduct

thorough internal controls and risk management. At the same time, regarding profit distribution, our basic policy is to implement appropriate and stable distribution of dividends to shareholders.

We aim for a consolidated dividend payout ratio of 30%, with a focus on returning profits to shareholders in line with consolidated performance.

ii) Capital requirements and financing

Major capital requirements of the Group include capital expenditures and operating expenses such as material costs, outsourcing costs, labor costs, overhead costs, and selling, general and administrative expenses. Those capital requirements are satisfied by own funds.

As for working capital on hand, the Company concentrates surplus funds from subsidiaries in the Company for centralized management by implementing the cash management system (CMS) and also having certain of its domestic subsidiaries implement the same system. Note that the Company's CMS is administered by Nippon Steel Corporation with 106,022 million yen deposited in the system as of September 30, 2023 being presented as part of cash and cash equivalents.

For unexpected capital requirements, the Company has overdraft arrangements with major banks and Nippon Steel Corporation, its parent company, to prepare for liquidity risks.
