Notice Concerning Endorsement of TCFD Recommendations

NS Solutions Corporation announces its support for the recommendations of the “Task Force on Climate-related Financial Disclosures (TCFD)” established by the Financial Stability Board (FSB).

Our mission is to build relationships of trust with our clients by creating true value, to grow with our clients, and to contribute to the development of society. With this mission in mind, we conduct our business activities toward creating an enriched society based on ESG. We also support climate change actions recommended by TCFD and continue to actively work toward Sustainable Development Goals (SDGs) proposed by the United Nations to contribute to the realization of sustainable society as a member of the global society.

In addition, we will actively promote the introduction of renewable energy in our data centers and offices, aiming to reduce GHG (Scope 1 and 2) emissions by 50% by FY2030 compared to FY2015, and to achieve carbon neutrality by FY2050.

We plan to issue an integrated report by the end of this year to actively disclose information based on the TCFD recommendations.
